

1-2-3 TREAT: MATERIALS LIST

If you have any questions as you complete the tasks, please refer to the Cognitive Assessments section of our FAQs page located at <u>dogagingproject.zendesk.com</u>.

In order to get ready to play 1-2-3 Treat with your dog, you need to collect the necessary materials listed below.

For 1-2-3 Treat: Box Construction you will need:

- 3 pieces of cardboard that are each at least 10 inches by 10 inches*
- A pen or pencil, ideally a Sharpie or other marker that is highly visible
- Scissors
- Tape
- A ruler or measuring tape and a straight edge*

*If you want to use the printable box template, you will need a printer but will not need a ruler or straight edge. The printable box template will fit on a piece of cardboard that is 8.5 inches by 8.5 inches.

For **1-2-3 Treat: Array Setup** you will need:

- A 10' by 10' space (inside or outside)**
- A measuring tape
- Masking tape, Post-It notes, sidewalk chalk, or some other way to mark out the array.

**The 1-2-3 Treat Activity will work best if you set up the array near your computer (or whatever device you access your personal portal on). We will provide alternate accommodations if you need to play 1-2-3 Treat, write the results down, and then enter the results in your portal later, but we encourage you to enter results directly into your portal if possible.

For **1-2-3 Treat: Warm-Ups** and **1-2-3 Treat: Play the Game**, which we would like you to complete back-to-back, you will need:

- The three cardboard boxes you made
- About 40 small food rewards***
- A dog leash and collar or harness
- Your dog!

***The 1-2-3 Treat Activity involves asking your dog to search for small treats. Between the Warm-Ups and the Game, you will need about 40 small food rewards. These could be pieces of kibble, treats intended for training (usually low calorie), or pea-sized bits of cheese or meat. If the treats you have are larger than pea-sized, please break them into the right size. Make sure to select a food reward appropriate for your dog (and won't be too high calorie if they eat 40 pieces).
